Vehicle Tracking: Vehicle Information at your Fingertips

Track and report on your vehicle usage and costs quickly and easily with our Vehicle Tracking Program. This program is designed to track your vehicle mileage, warranty, insurance, repairs, and other costs. It is very easy to use with numerous preferences available to make using the program a breeze.

Enter your mileage and optionally your fuel costs and gallons, as well as other expenses like tolls and repairs. Print mileage and expense reports for expense reimbursement or income tax purposes. Numerous other reports are available. No more manual logs to keep! You quickly and easily have all your vehicle information at your fingertips and can easily print it out. This is an inexpensive and very to easy to use program that will save you lots of time and headaches.

New in Version 2

It got even easier to use and more powerful at the same time

We added better online help, a printed user manual, a built-in backup program, internet program update capability, and a much improved user interface. The vehicle screen has a much friendlier tab system to make your important information even more convenient to retrieve and update. Users of prior versions can upgrade now at a reduced price for a limited time to get all the above and another year of free unlimited technical support!
